July 28, 1969

Dear Sylvia,

I was able to get this endorsement of my 133A and 133B research.

Jack has become a friend, so perhaps this is not the "hostile scrutiny" you asked about, however, he's quite experienced, having once been in charge of a Naval photo research lab at China Lake, California and is now retired.

He requested a set of these slides and spent quite awhile examining them.

Anyway, thought you would like a copy of this for your files.

Sincerely,

  
FRED
