Dear Sylvia,

Can you answer a question for me? I have a slide which is a copy of frame #313 of the Zapruder film as published in Life Magazine, except I do not know what issue of Life Magazine contained this frame.

I seem to recall someone telling me once that Life first printed this frame then "yanked the issue" and reprinted the issue and deleted this frame.

Was this the December 6th (1963) issue or the October 1964 issue, the "Warren Report" issue. What is the story on this. Did Life issue a press release on this frame deletion, or am I all wrong?

As far as my collection goes, I have ~~three~~ frame #309, and frame #323 and a cropped version of frame #312 that they printed in November of 1966 and these are all the frames Life printed that are anywhere near the frame #313.

Otherwise, how are things going. A cat followed me home the other night and Farley and the newcomer get along about as well as Harold and David do.

Peace,

Fred
