Dear Sylvia,

Enclosed for your file is the latest in my windmill tilting contest. They wear you down and after a while hope you will just go away and quit reminding them of 1963.

I suppose for my sake and for my families sake I should just quit dwelling on past coups and recognize things for what they are. That we all live in the world's largest ~~xxx~~ banana republic.

But before I do, I wonder if you would do me a favor?

For the past millennium Perry Adams and I have been flagellating ourselves by producing a manuscript on "the case".

We would like to have you read it and offer suggestions, criticisms, advice, admonishments or even vindictive.

If you can spare the time, I would like to mail a copy to you around mid-July.

We would both value your assistance no end.

Peace,

ml
Fred
and Marlynn
