Oswald Widow Child Reported

DALLAS — (AP) — Officials at suburban Richardson General Hospital were silent Monday about the birth of a boy to Mrs Marina Oswald Porter.

Neither the hospital nor Mrs Porter's mother-in-law would deny or confirm published reports that the child was born at 3:08 PM Sunday.

The Dallas News said that the 6-pound 12-ounce boy had been named Mark Wayne Porter.

Mrs Porter is the widow of Lee Harvey Oswald, named by the Warren Commission as the assassin of President John F. Kennedy. She married Kenneth Porter June 1, 1965, about 18 months after Oswald was shot to death by Dallas night club operator Jack Ruby.

Mrs Porter had two children by her first marriage, June, now 5, and Rachel, 3.
