JUN 1 9 1966

Rumors and strange tales port, now declassified, which about the shooting of President appears to discredit the official Lincoln have kept cropping up view that a single bullet passed off and on during the past centhrough President Kennedy's tury. Thus it is not surprising body and then wounded Gov. that the Warren Commission's John B. Connally Jr. of Texas. findings as to the assassination The summary report is quoted of President Kennedy are still in support of the idea that a being called into question. It second assassin was also inwould be far more surprising volved in the crime. if this were not so.

from the Warren conclusions ged off; they deserve a hearmight also be rather disturbing, since one might then have reason to suspect an official attempt to suppress criticism. As it is, no such suspicion arises. Those who dispute Commission findings, notably the basic one that Lee Harvey Oswald alone was the assassin, have had no trouble getting their views before the public. Several accounts already on sale, and oth-

eral Bureau of Investigation re-iren Commission report.

The various dissident ac-The lack of published dissent counts cannot be merely shruging. However, one should bear in mind that not merely the FBI summary report but all the actual reports of FBI agents were used by the Commission. It considered the two-assassin theory but discarded it on the basis of all the evidence available.

It does not follow that the Commission is right and its detractors are wrong. The circumstances are such that, though the most intensive iners soon to be published, take though the most intensive in-issue with various aspects of the vestigation was made, no one can ever be wholly sure. At present, however, there appears One principal source of chal to be no valid reason not tolenge is the summary of a Fed accept the accuracy of the War-
