# Psychics Say Sirhan Did Not Murder RFK

By MALCOLM ABRAMS  
MIDNIGHT Staff Writer

America's top psychics are all getting the same message: Sirhan Sirhan did not kill Bobby Kennedy.

In an uncanny collection of second sights, Bernadene Villanueva, Laurie Brady, Maria Papapetros and Jacqueline Eastlund all see another gun, a sinister plot and a sort of bizarre brainwashing that defies explanation.

So what did happen on the night of June 5, 1968? Perhaps only a psychic's extra sense will ever tell the true story.

**BERNADENE VILLANUEVA**

While Richard Nixon was still President of the United States, Bernadene Villanueva foresaw his serious illness, his surgery and his confinement in a wheelchair. Her psychic powers now convince her that someone other than Sirhan Sirhan killed the Senator.

"The man who killed Robert Kennedy is walking the streets of Los Angeles free.

"Some months ago I lectured at the Ambassador Hotel's Embassy Room in Los Angeles, which is where Kennedy made his last speech minutes before he was assassinated. After my talk, I walked through the pantry where the tragedy took place.

"Immediately I picked up the impression that there were actually three guns there that night. But only two that were fired.

"Sirhan intended to kill the Senator but he did not. His bullets missed and Kennedy was killed by another man firing in close proximity.

"I also picked up the feeling that Sirhan was not acting under his own will. He was controlled by others — not through hypnotism — but my mind control.

"He was merely a pawn in a conspiracy.

"If the authorities would check the other assassinations — John F. Kennedy, Oswald, King — they'll discover that mind control was involved in each and every one of them.

"It's my sincere belief that

Russia has been using mind control against the leaders of our country."

**Laurie Brady**

Using astrology, Laurie Brady predicted the resignations of both former President Nixon and Vice-President Spiro Agnew months before they took place. Using that same psychic power she offers MIDNIGHT the following observations about the untimely death of Robert Kennedy.

"I've always felt that the Senator's assassination was part of a larger plot that included the murders of the President, Martin Luther King and the attempted killing of George Wallace.

"There's no doubt in my mind that the men apprehended for these crimes had all been mentally manipulated. They were not doing their own will, but that of others. They were mere robots under the control of powerful conspirators who seek to run this country.

"Sirhan Sirhan attempted to assassinate Sen. Kennedy, but missed and struck bystanders instead. The fatal shots were fired just a fraction of a second after Sirhan's blasts.

"I also feel there was a third gun present in the pantry that night. I believe that all the exit routes the senator could have taken out of the hall were covered by killers. The path through the pantry was chosen by the Senator only minutes before. Sirhan was waiting and so was another — the real assassin.

"The actual killer of Senator Kennedy had not planned to shoot him. But he was carried away by the frenzy that took place when Sirhan fired his gun."

**Maria Papapetros**

Maria Papapetros pinpointed to the day when bombing attacks would be made on the palace of the President of South Vietnam. Her many other accurate predictions have made this California psychic tops in her field. Miss Papapetros has strong feelings about the murder of Bobby Kennedy.

"Sirhan bore no personal animosity against Senator

Kennedy but was fighting for a cause which has a large organization behind it.

"This organization is a merger of three international groups, one of which has a communist background.

"I have a strong feeling that within the next six months this organization will try to assassinate other world leaders, including Henry Kissinger.

"The main weapon of these conspirators is mind control. That's what they used on Sirhan.

"I believe that he pulled the trigger on the gun that killed the Senator, but not of his own free will. He was programmed like a computer."

"The three organizations that conspired in these plots are now quarreling amongst themselves. I feel that the death of King Faisal was the result of this inner fighting and that his nephew-assassin was another victim of mind control."

EASTLUND**

She predicted the illness of Aristotle Onassis — his gall bladder operation and his respiratory problems — almost a year before the Greek shipping

magnate was hospitalized with his fatal illnesses. Now for MIDNIGHT readers. Jacqueline Eastlund recounts her strange psychic experience on the night Robert Kennedy was shot.

"That evening my husband called to me and said Bobby Kennedy was on television. I came into the living room and when I saw the screen, I exclaimed, 'Good Lord, I wonder why they did that.'"

"My husband was befuddled. 'What are you talking about?' he asked.

"I saw a halo over Bobby's head. Just like you see on angels — white with a blue background.

"I was seeing it so strangely that I went right to the TV and pointed it out, but he still couldn't detect it.

"That night I woke up screaming. 'Senator Kennedy's been shot!' My daughter, Terry, turned on the radio and in a few minutes we heard the announcement. He had been murdered at the exact moment that I had screamed.

"I said at the time that Sirhan hadn't murdered Kennedy and that the fatal shots had come from another direction. I knew then that three people were involved, including a woman, and that the conspiracy was communist inspired.

"I also feel that someone close to the Senator knew exactly what was going to take place.

"Right now I only pray to God that Ted Kennedy keeps his word and doesn't run for the Presidency. It could happen to him too."
