Dear Mrs. Meagher,

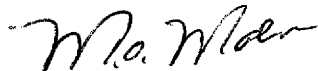

Thank you for replying to my recent letter. You ask if I am a researcher of the Kennedy assassination. I'll try to answer. I am certainly more than mildly interested... But perhaps do not qualify as a researcher. I would admit to being a student; maybe even a serious student. Although I have a personal copy of the 26 vol. set of testimony and exhibits, I cannot claim to have completed reading them.

Your offer of a loan of your INDEX is very generous, and I would like to take advantage of it. I'll find out what the first class postage will be and enclose it.

Have you considered another printing of this book. It might be that with the shaw prosecution getting network coverage of sorts, that there would be enough of a market to justify a re-issue. If you do decide to put it out again, let me know. (I own a piece of a book store and I'd like to see that we stock it)

Otherwise, I am a physicist at the Lawrence Radiation Lab in Livermore.

Sincerely,

Monroe C. Moen

*Our mail room says

\$2. Please keep the change*
