CONGRESS VOICES ITS CONDOLENCES

Politicians Express Outrage, and Some Link Assault to War in Indochina

By DOUGLAS ROBINSON

Opponents and supporters of Gov. George C. Wallace joined yesterday to condemn the shooting of the Alabamian and to deplore the growing tendency toward violence in American politics.

Both the Senate and the House of Representatives unanimously approved a resolution saying the attempted assassination should be "deplored and condemned by all Americans."

The resolution, introduced by Senators James B. Allen and John J. Sparkman, Democrats of Alabama, also conveyed to Governor Wallace and his family the "best wishes and prayers of all citizens."

Similar words of condolence and outrage were issued by politicians across the country, by church groups and black leaders, and in newspaper editorials. Overseas, the shooting was front-page news and some newspapers linked the violence with the war in Southeast Asia.

'Ominous Regularity'

"Izvestia, the Soviet Government newspaper, found an element of "ominous regularity" in the incident and recalling the death of Senator Robert F. Kennedy in 1968, the newspaper noted: "Once again an election year—once again a shooting."

The Senate majority leader, Mike Mansfield of Montana, said he was "horror-struck" by the shooting. "It indicates a weakness of some kind in our democracy," he said. "It bodes no good for this Republic."

The Senate minority leader, Hugh Scott of Pennsylvania, echoed his colleagues' expressions of shock, saying that "America was founded on five freedoms and now freedom
