

A PAPER SAYS 3 EXPERTS TRACE LETTER TO OSWALD,

DALLAS, April 2 (AP)—Three handwriting experts have examined a letter dated Nov. 8, 1963, to an otherwise unidentified "Mr. Hunt" and have concluded that it was written by Lee Harvey Oswald. The Dallas Morning News reported today.

Mr. Oswald was identified by the Warren Commission as the man who shot President Kennedy to death here on Nov. 22, 1963. The commission said it found that Mr. Oswald acted alone in the assassination.

The letter says: "I would like information concerning my position. I am asking only for information. I am suggesting that we discuss that matter fully before any steps are taken by me or anyone else."

Penn Jones Jr. of Midlothian, a retired newspaper editor, told The News he obtained the letter through the mail from an unidentified person from Mexico City. He said the sender told him that he gave a copy of the letter to Clarence M. Kelley, Director of the Federal Bureau of Investigation, in late 1974. An F.B.I. spokesman has said the bureau knows nothing about the delivery of the letter to Mr. Kelley.

However, the Dallas office of the bureau acknowledged yesterday that a letter purportedly written by Mr. Oswald to a "Mr. Hunt" was under investigation.

A Dutch journalist who testified yesterday before the House Assassinations Committee linked the late H. L. Hunt, the Texas oil millionaire, to a conspiracy to kill Mr. Kennedy. However, a spokesman for Mr. Hunt's estate has denied that Mr. Hunt had something to do with the assassination.
