SYLVIA MEAGHER, the in-

dependent student who compiled the first complete subject index to the Warren Commission's 26 volumes on the assassination of President Kennedy, has followed up with an analytical work, **ACCESSORIES AFTER THE FACT: The Warren Commission, the Authorities and the Report** (Bobbs-Merrill).

The thick but quite readable book will provide more ammunition for those who believe that the investigation of the case was carelessly handled, from the questioning of Oswald right through the commission's proceedings.
