# Attempt to Disprove Warren Report Is Unsettling Account

ACCESSORIES AFTER THE  
FACT

By Sylvia Meagher  
(Robbs-Merrill)

THE accuracy and adequacy of the Warren Commission's report into the assassination of President John F. Kennedy has been under fire practically from the day these findings were made public.

A GREAT MANY people based their "feelings" about the report on guess and conjecture. Within the past few months, several writers have published works pertaining to their "knowledge and research" into the accuracy of the Warren Commission's report.

ACCESSORIES AFTER THE

FACT is regarded in many circles as the best of the new crop of books dealing with the first Kennedy assassination and the Warren report. It is also the most "positive" person to have second thoughts and doubts as to the truth of the matter as reported by the Warren Commission.

Mrs. Meagher is not a sensationalist nor publicity seeker. Her New Yorker article on the criticisms of the Warren Report notes that many of them consider her "an extra-ordinarily serious minded woman, far and away the best scholar in the field."

Her work is a complete and documented study whose purpose is to present by comparative analysis of the Warren Report and the actual testimony and documents indisputable proof that the Report's conclusions are false. Though this reader approached the subject with an open mind, after finishing her book, my opinion is more in line with her way of thinking than in what was reported by the Warren Commission.

DURING HER investigation she uncovered facts and figures which are bound to have an unsettling effect upon many readers who consider themselves well informed as to the actual happenings in Dallas and the resulting controversy.

"The central purpose of my book," Mrs. Meagher has been quoted, "is to prove that Oswald, far from being a lone assassin, may well be innocent of any implication in the crimes of which he has been accused; there were two or more assassins and the Warren Report is a travesty of fact and mockery of justice, consciously contrived to render a false version of the assassination."
