Dear Susan,

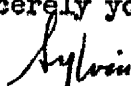

I hope it is not too late to make the following important addition to the text of Accessories:

On page 340, paragraph 5, line 4, insert asterisk after "U.S. Code!" with footnote to read:

The author learned in 1975 that Oswald's references to the U.S. Code (Title 18, section 1544) related to the illegal use of passports. He had access to the relevant title and section of the Code in his own passport, which was in his possession when the "brief" was written.

Thanks and kind regards.

Sincerely yours,
