

Pending work

- (1) Locate in Sauvage's articles and/or book his treatment of the failure to search the cartons in the shield of cartons for fingerprints; and also his analysis of the unidentified identifiable palmprint on a carton.
- (2) In the chapter "Palmprint on the Rifle" (Part I, Chapter 4, Section 8) locate appropriate point at which to introduce a brief new paragraph dealing with the lack of fingerprints on the rifle and with the weakness of the other fingerprint/palmprint evidence.
- (3) In Part I, Chapter 5, Section 10, dealing with the stretcher bullet, please read critically and see if in a brief paragraph or two we can work in a tribute to Ray's monograph and also ~~make some mention~~ any of his strong points not already included.

NEWSPAPER LIBRARY: In each case, the headline/byline/page no./column no. are needed.
