Dear Sylvia

Thank you very much for your recent letter of the 15th. It was nice to get some feedback on my memo, of which I've received little.

CD 347 was the CIA's first report to the Warren Commission on WFO in Mexico (1/31/64) which currently is classified "secret". It is the CD 1 of the Mexican area.

948-927T refers to ^{the} CIA Freedom of Information document of that number which I have enclosed. As you can see, this document clearly states that the CIA obtained photos of MAMM at the Soviet Embassy on the same day as Oswald's contact. (10/1)

Best of luck on your inquiry and my hopes you'll find the energy for another Accessaires. In the meantime, if you see anything important or Mexico hidden in the volumes please let me know.

Best wishes,
Mark
