Dear Sylvia,

Enclosed is the promised material. It came to \$1.00 even. After receiving this work you should be well informed on the Mexico issues, and particularly able to evaluate any confidential information that may come your way. You may have already heard the rumor, spread by the AIB, that the HSCA staff talked to several people who heard the LHO tapes and from that concluded that the tapes were not of Oswald. The details I heard were much too sketchy to draw any certain conclusions.

It was quite a pleasure to finally get to meet you, and I sincerely hope you will find the time and energy to study and evaluate the HSCA's report. Of course, I welcome your comments on the enclosed material as well.

Best wishes,  
Mark
