Dear Menachem,

An acquaintance of mine here at the UN who wishes to remain anonymous has asked me to convey to you in cash a contribution in response to the appeal in the October issue. However, I don't like to carry around cash which is not my own (in case I am tempted to spend it) so I have written a check for the same amount, which I enclose herewith. The donor asked that if it is not your custom to list contributions as "anonymous" to omit this sum entirely.

I hope that the balance will come pouring in, as TMO deserves from its friends.
