POLITICS--THE KENNEDY FAMILY.

The two surviving brothers, Bobby and Teddy, although both trained as lawyers, don't seem to have any great mental power of deductive and inductive reasoning like a good Scotland Yard type of brain should or like a Perry Mason or Paul Drake. They are content to be demagogues like the Gracchi brothers in ancient Rome and seek future career of power by counting popular support. Right under their noses are pieces of evidence a really good lawyer-brain would have noticed, about their own kith and kin.

In the February 1962 article in LOOK Magazine about the elder brother Joe Jr. there is complete evidence that he did not get blown up but rather was captured by a flying saucer--kidnapped by a force like a giant vacuum-cleaner or electro-magnet force. Ever since he has probably been living in "The Anchorage" the gravity-neutral spot between the earth and the moon about 170,000 miles from the earth and 70,000 from the moon. This spot happens also to be the gravity neuter between the earth and the sun. For details see the book THE CASE FOR THE UFO By Jessup. Some weird things have happened since. Joe Jr. may be the chief UFO operator who has "buzzed" Wash.D.C. since 1952. He may have become allergic to oxygen or some other fantastic thing. Probably still looks page 29.

The two brothers are even naive about a comparatively simpler thing--determining the real assassins of their brother Jack, the Pres. I picked up some claims which I call "The Texas Theory" while touring Texas in April 1966. These Texan Theorists name a mysterious master-mind of evil genius whom they call Old Horseface of Waco, also known as El Babronacho, a Tammany type politician who has been trying to get control of the political Machines of one big Texas city after another. They claim Officer J.D. Tippit was on the overhead pass with Jack Ruby (disguised as a heavy-set woman) Tippit fired two bullets into Pres. Kennedy first in the throat then second one inch above the left eye which exploded his skull. A priest later saw that left temple wound of entrance in the hospital. The Chief of police was also in on it taking orders from Old Horseface. He had one cop in uniform on the sixth floor who shot the governor, and two bullet which missed. Oswald was a mere gun-bearer but in on it. See the books WHO KILLED KENNEDY? By Thomas Buchanan and UNANSWERED QUESTIONS ABOUT THE ASSASSINATION By Sylvan Fox. After the firing Ruby rushed back to the newspaper office to resume writing his advertisement and Tippit drove off to meet Oswald and murder him, as a double-cross probably ordered. Oswald beat him to the draw and then must have planned to chicken out and turn state's evidence so Ruby killed him, again on orders from high places. These movements are perfectly possible as seen from these two books.

What sort of people are the Texan Theorists, you ask? They believe many fantastic things, some of which I would not want to believe from mere wishful thinking. They think Hitler still lives and visited Iowa and Nebraska in April, 1965. They think the American Nazi leader George Lincoln Rockwell is a mere bait set up to trap Hitler into coming out of hiding, which Rockwell is financed by Nelson Rockefeller. They like Hitler but no Rockwell. They get their religion from a certain E.T. Tennyson of Harvest Publishers of Box 33, Jefferson City, Missouri #35102 who knows Greek and Hebrew and claims that the book of Revelations shows that a whirlwind will throw all ocean water back into orbit as it was before the Flood of Noah. They live under expectation of imminent disaster and like King Louis XV say "after us the deluge". They don't know details about the International Communist Conspiracy as written up by Professor Revilo P. Oliver in his pamphlet "MARXISM IN DALLAS" but they tend more to have a Macchiavellian astuteness rather than a naivete about human nature possibilities. They are far more cynical than they are credulous. Old Horseface might be a loyal member of the Conspiracy and his feud with the President Kennedy remind one of Prof. Oliver's remark in the above pamphlet "just as Persian satraps, such as Tissaphernes and Pharnabazus made war on one another without revolting or intending to revolt against the King of Kings. Jacqueline Kennedy is by all odds the smartest of the lot, after her Joe Sr. and Rose. After them Joe Jr. I believe Joe Jr still lives and has made futile efforts to contact people on earth, can't return for some reason, become allergic to something lethal on earth, possibly simple atmospheric nitrogen. He must know a lot, like hundreds of encyclopedias. If the brain is like a radio set, he probably could "cure" his sister Rosemary immediately of being "retarded" by the simplest of brain operations.
