

ADVERTISING: ASSORTED SERVICES OF A RIGHT WING EXTREMIST OF I.Q. 190 Who is also Astrologer of 35 years experience.

For New Beginners in astrology: You can get all necessary equipment—mathematical and planetary astronomical tables from MACOY PUBLISHING AND MASONIC CO., 34 W. 33rd St., N.Y., N.Y. Zip 10001. They also import from England and Germany and supply virtually all other occult book stores in U.S.A. After you get equipment and set up your chart you can then learn much by reading various astrology magazines every month. I have an ephemeris for each year since 1839 and many between 1801 and 1839. They have everyday's planetary longitudes, one page to a month. I'll compute your chart for \$1.00 without analysis. Interpretation and answering questions is \$12.00 with year ahead.

Claims of Jesse James III of Salado, Texas. To illustrate a utile modus operandi in astrology showing how astrologers can function as Scotland Yard men or as a Perry Mason-Paul Drake Combo to solve problems and mysteries, I am using a colleague, another astrologer, as a Devil's Advocate to argue with me, while we make a thorough test of this man's sincerity, integrity, claims and talents. He claims to be grandson of Jesse Woodson James (1844-1951) the Great Rebel and leader of the Confederate Underground 1865-1884), who was confidant of Nathan Bedford Forrest, Confederate General who founded the KU KLUX KLAN and responsible for burying much gold and silver coins and bars and placer gold and firearms. Jesse III is seeking financial backing for going on digging expeditions to unearth these treasures to serve the modern Right Wing Cause. Jesse III wrote a book in 1962 about his grandfather called JESSE JAMES AND THE LOST CAUSE with much secret information useful to revisionist historians. All Right-Wing enthusiasts should be more than curious to find out if the Cause can depend on this hypothetical great wealth in buried treasures.

FOR RIGHT WING EXTREMISTS: To serve the Cause I have started a small sheet, The High I.Q. Reporter. Free copy on request. First issue contains Compendium Directory of some 30 brilliant Right Wing thinkers, writers and publishers with addresses and brief comment on their favorite theories.
