

April 15, 1976

Ms. Sylvia Meagher
Deputy Director New York Office of
World Health Organization
New York, New York

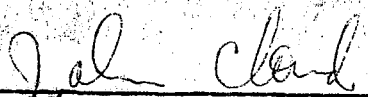

Dear Ms. Meagher:

This letter and the enclosed matter is intended to acquaint you with the upcoming program at Arizona State University.

As your interest in the subject matter has been expressed it is felt that you should be made aware of this program. This letter will serve as the necessary document for you to gain entrance to the program. We may have to restrict this to Department Heads or Deans only, however this letter will circumvent even this requirement.

We would like a phone call or wire if you choose to attend.

Sincerely,

Professor John Cloud
