WHERE WE LIVE

At the end of 1982 our membership had increased to 2,152, with people living in 68 different countries. The tables below indicate the geographical distribution. The two maps on the opposite page show graphically where 77 per cent of us have settled down for retirement. This includes the 40 per cent living within about an hour's drive from UN Headquarters. Just under 200 reside in Europe and the same number in the Latin America--Caribbean region. Other significant concentrations may be found in Ontario/Quebec in Canada, Florida, California or the eastern seaboard of the United States.

Internal UN telephone extension numbers are in the left column above, and office locations on the right. When calling from outside New York City, you must dial 1 first. Then the area code [212] and the city exchange number [754], and finally, the four-digit UN in-house extension.

OUR AUDITORS

The finances of the Association have been checked and certified annually for the past twelve years by several of our members who had served in budgetary and accounting capacities during their active careers with the organization. We are most grateful for the time and efforts they have contributed to this work.

Internal UN telephone extension numbers are in the left column above, and office locations on the right. When calling from outside New York City, you must dial 1 first. Then the area code [212] and the city exchange number [754], and finally, the four-digit UN in-house extension.

OUR AUDITORS

The finances of the Association have been checked and certified annually for the past twelve years by several of our members who had served in budgetary and accounting capacities during their active careers with the organization. We are most grateful for the time and efforts they have contributed to this work.
