

UNITED STATES DEPARTMENT OF JUSTICE
FEDERAL BUREAU OF INVESTIGATION

936

WASHINGTON, D.C. 20535

November 25, 1966

Handwritten initials and a circular stamp

On November 21, 1966, Mr. J. Edgar Hoover, Director,

Federal Bureau of Investigation, received a letter from a newsman expressing concern over the rash of books, articles and statements which are "creating confusion and doubts about the validity of the findings of the Warren Commission regarding the assassination of President Kennedy." The newsman said that one of the "concerns" concerned the alleged variance of the results of the medical examination of the President's body, recorded in FBI reports dated December 9, 1963, and January 13, 1964, and the official autopsy report.

The newsman expressed appreciation for any comment

Mr. Hoover would make concerning these matters.

The newsman requested that Mr. Hoover prepare a statement regarding the alleged conflict between information reported by the FBI and the autopsy report.

By letter dated November 23, 1966, to the newsman, Mr. Hoover said he shared the concern of the newsman regarding the criticisms of the Warren Commission's findings. He pointed out that while the critics had every right to state their views, they "should show more regard for the facts on record. They have ignored certain facts, misinterpreted others, and expressed mere speculation as truth."
