

Special To The Times From The N.Y. Herald Tribune

 \mathfrak{S} DALLAS - The Dallas doctor who performed emergency sur-gery on Texas Gov. John Con-talk to Mrs. Kennedy or to wave nally said yesterday that author-ities have been able to recon-Dr. Shaw was very careful to ities have been able to reconstruct the sequence of shots that killed President Kennedy last Friday.

Eye-witness accounts by Gov. and Mrs. Connally, and a crucial Polaroid picture taken by a spechis skull.

man of the Department of Thoracic Surgery at Parkland Me- there was no hope. morial Hospital, said here yesterday that the President was "medically dead" the instant he was the neuro-surgeon who headed a hit in the skull.

Shaw said that medical aushot that hit the President, a arrived at Parkland Hospital "in bullet in the front of his throat a final agony. which lodged in his right lung, was not a mortal wound but skull was blown away, was one which, with proper care, Clark said. "It was one great the President could have sustained.

This was the manner in which blood poured profusely. the murderous fusillade tore into the back of the presidential limousine, Shaw said:

"THE FIRST BULLET entered President Kennedy's trachea, in the front of his neck. coursing downward into his right lung.

"The bullet was removed in Bethesda Naval Hospital in Maryland, where an autopsy was performed.

"Gov. Connally states he turned, saw the President slumping, then he felt a terrific blow to his right shoulder which stunned him. That was the second shot.

"The governor then was conscious of a dull explosion, the shot that struck the President and went through his skull, killing him.

"We know that the first shot went through his throat because authorities have a Polaroid picture, taken by a spectator right after the first shot. It shows the President slumping, his head is intact, undisturbed. "Additionally, Mrs. Connally said the third shot struck the President in the head."

shot. "The assassin was behind him, yet the bullet entered at the front of his neck. Mr. Kennedy

say that the President technically was alive when his speeding limousine arrived at the hospital, minutes after the shooting.

"But medically he was dead when the bullet torc off a piece tator, reveal that the President of his skull," he said. "It's true was killed by the third shot, the that he was gasping in agony bullet that tore away a piece of and there was a faint heart beat, but the breathing was impulsive and a heart can beat even after DR. ROBERT R. SHAW, chair- it is removed from a body. The doctors took one look and knew

DR. WILLIAM KEMP CLARK,

team of 12 medical men in a desperate effort to save Presithorities here felt that the first dent Kennedy, said the President

> "A very large piece of his Dr big hole. It was through this wound his brain extruded and

> Dr. Clark said he did not see the throat wound, but "some of the other doctors felt the President had sustained two wounds, one in his throat and one in his head."

The neuro-surgeon said all the doctors saw the head wound.

"ALL AGREED THIS was the lethal wound," he said.

Dr. Clark was reluctant to talk about the neck wound, which he did not personally observe, because three other surgeons were performing a tracheotomy, but Dr. Shaw said: "They didn't have to widen the column much, they just followed the course of the bullet

The almost-unbearable irony of the assassination Friday grew even deeper yesterday.

R. S. Truly, superintendent of the Texas School Book Depository, the man who hired Lee Harvey Oswald, the accused slaver of the President, said he was positive Kennedy's limousine "zigged to the left" after, the second shot, in an effort to get the President out from under the deadly rifle fire. Ip was the third shot, accord-DR. SHAW ADMITTED he was ing to Dr. Shaw, that soufied out "a little balfled" by the first Kennedy's life,
