Dear Dick,

Another joker (a la Hoch) heard from, as you will see in the enclosed correspondence I have just received from John P. Conlon. I will welcome any comments you may have on his discussion of the Mannlicher-Carcano. Whatever he may have thought in 1964 about the "humanitarian rifle", he seems to have developed a Warren Commission mentality in the interim, and incurably so, I suspect.

Please return the Conlon letter and essay in due course. Also, I would be glad if you would return my article on Charles Givens, at your convenience.

I assume you have read or are reading Harold's book on the James Earl Ray affair. I am filled with admiration for his phenomenal research and important findings.

Best regards,

Hastily,
