

Copy of handwritten note to Dick Bernabei returning 2 photos
of the base of CE 399

1/21/71

Dear Dick,

Returned with thanks. Read your paper on CE 399 with keen interest. It adds a powerful new argument to the complex of evidence which compels the rejection of the official findings on this bullet and intensifies the reasons for suspicion that it is contrived and planted hardware.

I will of course keep your paper confidential, as you asked. What reaction did you get from others who read it?

Sylvia
