

12 November 1970

Mr. Shelley Braverman  
Athens, New York 12015

Dear Mr. Braverman:

I write this note and send the enclosed letter at the suggestion of Sylvia Meagher, whom you know through your interest in the assassination of President Kennedy.

The letter discusses a certain ballistic phenomenon which I am confident proves that President Kennedy was wounded in the head by a shot fired from a location other than behind the President.

I would be pleased if you would examine the contents of the letter and, if you have time, comment on them. I welcome anything that you might have to say.

If you write, please send a copy of your letter to Mrs. Meagher (302 West 12th St., N.Y., N.Y., 10014), for I am sure that she will wish to know your opinion or that of others with whom you may wish to discuss the matter.

If you have photographs which suitably illustrate the phenomenon in question, I would be most grateful if you would loan them to me for a short time. I would be happy, too, to receive bibliographical references to books that contain suitable pictures (please name the author, title, place of publication, and date of publication).

I request that you treat the matter confidentially, for I am currently preparing an article for publication, and would not like it to be disclosed prematurely. I would not object, however, if you show the letter to other ballistics experts who are willing to send me their comments about it.

I look forward to hearing from you, as I am sure Mrs. Meagher does.

Yours truly,

*Richard Bernabei*
