DEPARTMENT OF CLASSICS

13 October 1970

Mrs Sylvia Meagher
302 West 12th St.
N.Y., N.Y. 10014

Dear Sylvia:

If you are one of the recipients of Paul Hoch's recent memo, "An Experimental Study of the Motion Produced by the Fatal Shot in the Assassination of President Kennedy", August 1970, please tell me. I have had much to say to Paul that soundly refutes his hypothesis, and I am interested that others who know of this "Study" should learn my comments.

If you tell me that you know the "Study" in question, I'll send you copies of my recent letters to Hoch. He should have sent it to you, for you are mentioned in it.

If you do not have the memo, then please excuse me for not sending the letters until after Paul send you the memo, for he wishes the matter to be treated confidentially.

If you have read the memo and find it convincing, I urge you to withhold judgment until you hear what I have to say. The memo is worse than worthless, for it can, without the least justification, undo an enormous lot of good work, your own not the least of all.

Still,

Dick

Dick Bernabei
