Re:

QUEEN'S UNIVERSITY MEMORANDUM

22 April 71

Dear Sylvia -

I copied your new Givens material for myself, and sent the material to Roffman who will forward to Weisberg.

Belin's reply is weak and shameless; your rejoinder superb. (On p. 2 of your rejoinder I read the words prima faciae; that should be prima facie).

Bob Smith sent me a copy of his 31 March 71 memo. I am most glad to be in touch with him. If I have more to say about the Walker bullet, I'll write to him directly - with copies to you.

My immediate interest is to finish what I have to do about the dustlike fragments - that is, shooting and getting photos and X-rays of the results. Right now I am pressed for time, and but will get to it as soon as I can.

Stall,

Dick.
