Dear Sylvia,

Thank you for your observations about "Oswald's last letter". I agree Allen/Scott seem to have been less than honest, but I don't agree that it is a trial balloon for a Castro conspiracy; they outlined the possibilities whereby Oswald could have known Aszque was being replaced fairly. I think, including the CIA as a possibility. Thus it does not seem entirely logical to cite a CIA memo in rebuttal of Allen/Scott's position.

I enclose a copy of a recent interview with deMohrens. I thought you might like it, and you may keep it.

I did not see Epstein's review of your book. Could you send us a copy?

Best wishes,
Lou.
