Mr. Curtis Crawford
410 West 110 Street
New York, N.Y.

Dear Mr. Crawford,

Your request of last Thursday was very useful, even though your appointment was postponed, because I think I found some curious things as a result of reading against a deadline. I am afraid the four or five questions you asked for have grown to 25.

I doubt if there will be the possibility of a long telephone conversation during the next few days, as we have visiting VIPs at the office and I will be at the ballet every evening from the 14th to the 18th inclusive.

It seemed advisable, in case you should want this material in the next few days, to mail it. I am therefore enclosing herewith the 25 questions together with commentaries on the photograph of Oswald with the alleged murder rifle, the identification of the rifle, the "shield" of cartons, and the interrogation of Oswald.

I hope some of this material proves useful and of course I would be most interested in your reaction and opinion. I am still engaged in fine-tooth-combing of the report and may not have encountered answers to some of the questions which occurred to me, if they are to be found in the report.

With kind regards,

Sincerely yours,

Sylvia Meagher
