Dear Bob,

Re: Corrections to be made in event of a  
second printing of ACCESSORIES

Enclosed you will find a series of corrections to be made in the event of a second printing of the book. Set A consists of corrections which are absolutely necessary for accuracy and/or clarity.

Set B consists of an amalgamation of desirable changes, which are not absolutely necessary but have been suggested to me by helpful friends who happen to be engaged in editorial work, together with the Set A indispensable corrections.

It seems to me that the Set B corrections, including those which are "optional," more appropriately would be made in a second edition rather than a second printing. However, you will know better than I just how extensively the pages may be altered in a second printing. I have prepared two sets in order to facilitate your selection.

Trusting that I have made myself clearer than usual,

Yours faithfully,
