Dear Bob,

So it turns out to be a no-no! Well, considering the mutilated state of the "top right corner, second line" and the previous delinquencies of the Bobbs-Merrill computer report of a deficit when in fact substantial royalties were due, I am more to be pitied than blamed. All right, I am no prodigy in commerce and industry, but don't confiscate my magnifying glass yet.

Clarification received and appreciated. Come September, I will remind you to complain. Much love,

Yours ever,
