SPECIFICATIONS

WEIGHT — Approximately 7 lbs. 6 ounces for 30/06 caliber.

BARREL — Individually machined from forged, heat treated billets of special steel. Barrel extension behind chamber contains locking recesses for breech bolt. Barrel length is 22" for all calibers.

RECEIVER — One-piece ordnance steel, richly blued and drilled and tapped for scope mounts. Grade II Model has graceful modern style hand-engraving of game animal heads.

ACTION TYPE — Gas operated, semi-automatic action utilizing the forces of the propelling gases to eject, cock, and reload automatically. It has an extra strong multiple lug rotating bolt that locks directly to the barrel.

MAGAZINE — A unique new trap door type magazine using a detachable box magazine in conjunction with a hinged floorplate. Magazine capacity is 4 rounds, giving a total rifle capacity of 5 rounds. Extra magazines will be available.

TRIGGER — Short, crisp single stage design. Weight of pull holds closely to 4 pounds.

SAFETY — Cross bolt with enlarged head.

SIGHTS — Fully adjustable, folding leaf rear sight. Front sight is a gold bead design dovetailed into a hooded ramp. Sight radius is a full 17½ inches.

STOCK AND FOREARM — Select walnut, sharply checkered and handsomely finished. Stock has full pistol grip and is contoured for use with open sights, receiver (peep) sights, and scope sights. Forearm is full, hand-filling. Sling swivel studs are installed in stock and forearm.

Length of Pull.....13⅝"

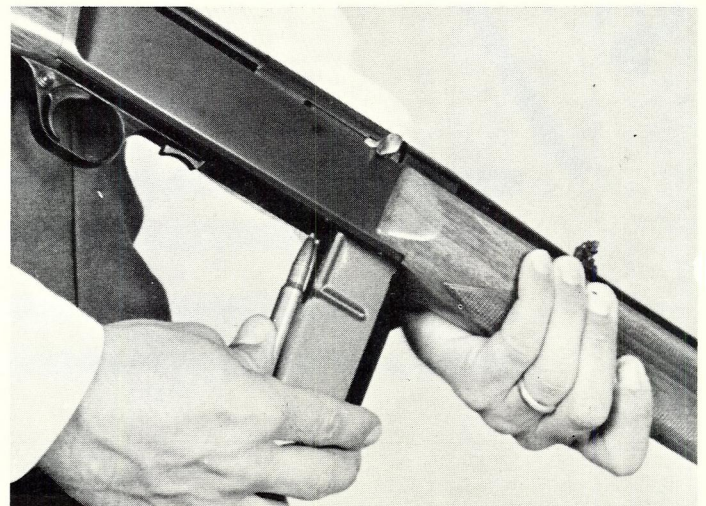

Drop at Heel..... 2"

Drop at Comb..... 1⅝"

SCOPES AND MOUNTS — Browning scopes and mounts will be installed and sighted in with a collimator without installation charge if specified at the time of order. Browning scope mount base #8017 fits this rifle.

Graceful hand-engraved receiver on Grade II model

Unique Trap door magazine is easy to load
