Dear Mrs. Meagher:

I think the WJT article had Epstein or somebody casting a suspicious eye upon you because your bookshelves revealed an interest in "Flying Saucers."

Well, our paper is intensely interested in good articles about UFOs, which by no means ended with our study in depth in the enclosed newspaper.

Would you also read that, if the subject interests you, and let me know if you can suggest any additional articles. If you have written any unpublished work on this subject and would care to send it, we would be most interested.

Yours,

Robert G. Cannon
