Mrs. Sylvia Meagher
302 West 12th
New York, N. Y.

My dear Mrs. Meagher:

Many thanks for your note of the 24th, and the lead to Gongora (CE 1444) and the "Walker shooting - Enquirer" listings in your Index pp 99-100; and p. 662 of the Warren Report, 8th paragraph. (We are awaiting delivery on our own set!)

In the meantime I have accumulated a couple of things I thought you should see. Would you care to see the story we are doing (newspaper enclosed) and advise me your opinion of its relevance to the growing criticism of the official investigations? Or perhaps you have leads that you might want us to explore.

I remember you mentioned that you and your fellow private researchers thought the WJT "Scavenger" article by Richard Warren Lewis, and that you contemplated a possible legal action. You will be interested therefore in this attached review of his forthcoming book, publication date 4/26. You might ask your own editor at Bobbs Merrill to get you an advance copy so that you can read it. If it is an expansion of the material in his offending article, he may again be referring to you, and I imagine you would like to know. *belongs*

Thirdly, part of my job is to keep looking for valid stories on the assassination and all its ramifications, so I thought to reread Lewis' article, and I have made the attached breakdown of all people mentioned, a great many of whom I imagine are personally known to you, as well as their published work. Would you be good enough to go over it for me and correct any misinformation I have, and point out whatever items you might think profitable for me to explore. I have been told about a Yale Professor Cohn, but this is brand new to me. He is supposed to be writing a book. Do you know of other people who are working privately that I might reach. Would Mrs. Martin at Owassa, and Mrs. Field, Beverly Hills, want to be interviewed, or have they been overdone in their own papers?

*You Index turned up
please remember me.*

Many thanks,

T. G. P. Cann
