Penn Jones, Jr., Esq.
Midlothian, Texas

My dear Mr. Jones:

My firm is acquiring a set of Warren Commission Reports, and in talking with a number of bibliophiles in our Public Library I have learnt that Sylvia Meagher's Subject Index is absolutely, but absolutely indispensable.

However, both Mrs. Meagher and I were disappointed to learn that her publishers have given away their last copies to CBS or NBC or whatever.

Mrs. Meagher thought I should ask you if you will sell me one of your extra copies which you had the good sense to acquire, and if you could spare her any of the extras she would love you to let her know.

With many thanks for your generosity, I am

Yours faithfully,

MRS. TOWNSEND W. P. CANN

Dear Mrs Meagher-

Thanks so much for sending the "prata" sheet - now if I can get the "works" of Penn Jones I can get the advice about where to find the stuff. I hope you will put up your thinking cap again. I called yesterday because I'd been given some incorrect but eventually my researcher found it up under Ross (El Triempo) in JST XXII. You're a

bride to field my occasional enquiries - I ought to send you some w.R. stories or I will -
