Dear Mr. Corson,

Please excuse my delay in answering but I was swamped with accounting work. I knew about the Citizens' Committee of Inquiry--I sent them all the papers I sent you. I also sent them to the British "Who Killed Kennedy" Committee. Mark Lane has seen them twice, since he is chairman of both those Committees.

Mr. Samuel Walsh has never written to me.

I have the 26 volumes of testimony and exhibits and have been researching assiduously. Mr. Corson, I have found definite proof of a cover-up and an attempt to mislead the American public.

I don't know who to give it to because nobody pays any attention to me. (I take that back--my statement about Oswald and "I'm a patsy" appears in Letters from contributors in the March issue of "The Minority of One".)

The New York Times probably wouldn't want anything to do with it because they have come out so strongly in support of the Warren Report.....I am going to try Newsweek but don't know how far I can get. It appears to me that all the big principal news media are in^{on} the cover-up. "The Minority of One" is a liberal publication, and the right-wingers immediately scream "Communist!" about anything liberal.

I don't care who is involved--right-wing or left-wing---I want the truth to be known to the American public. And I have definite proof that it has been suppressed.

If you know anybody who can help me or have any other ideas let me know.

Sincerely,

Lillian Castellano

After I sealed the letter I found out that you can get a pamphlet called "The Gaps in the Warren Report" by Joachim Joesten.....in which he mentions my theory about the storm drain and the sewer system and quotes a little bit from my original letter to the Warren Commission.
