Dear Miss Meagher:

Here are some odds and ends that I was able to dredge up from my disorganized archives. For some reason, I was unable to find the ammunition chart we spoke of; but I'm sure it will turn up in a few days. I hope my "underlinings" in the articles are not too distracting. I've developed this practice to save time when rechecking a specific point. I hope to make it to the class this week, but in case I don't (or if the class is disbanded ~~by~~ by the authorities) you can reach me at UN 5-1223 (home) or PL 2-5700, ext. 215 (work).

Regards,

Bill Crehan
