Will Fritz says the case looks good. Says the man they picked up said "I got me a cop and a President, now I'm going to get me two more."

N.M. McDonald quoted Oswald's statement. Police had to restrain the crowd as they feel he is assassin. He did kill Tippit.

Sheriff identifies rifle as a 7.65 Mauser with telescopic sight.

Lee H. Oswald was heard to say after arrest--"I got me a President, a copy and it's all over--I need two more"--He was pulled yelling and screaming from the theater. No Secret Service man was injured however he slashed another officer across the face with a pistol.

Secret Service men say the President was shot with a German Mauser.

Sam Pate with a live report. Oswald was practically carried to jail. He kicked, cursed, and hollered. Bragged that he got the President.

A report that three more men are involved in the shooting. Captain Will Fritz said suspect now denies everything.

More on Oswald who is described as a fanatic...Rumors of western style lynching discounted.

Sam Pate reporting from City Hall. At the lineup Friday night he noticed that Jack Ruby was there when only the Press was supposed to be there.

Bill Hampton described scene as it happened in City Hall when Ruby shot Oswald. Much talk of Jack Ruby...Ruby is sometimes sadistic...Commentators discuss Ruby's presence in City Hall and the constant vigil he kept there. Question as to why he was there so much, unobserved.

Phil Allen--reported that a threatening call to the police station said "I do not want any police officer to get hurt but I do want to get that---." Repeat of threatening calls to attorney Droby...Seems to be a group and motive is questioned.

Ron Jenkins reports that Will Fritz made statement to press to the effect that the Dallas Homicide Division considers the case of the assassination of President Kennedy wrapped up and that Oswald was guilty of killing the President.

Dallas Police say Kennedy was assassinated by a shot from a warehouse. Used high powered army Japanese or German rifle of 25 caliber with a telescopic lens.

KRLD

Dan Rather, CBS correspondent in Dallas reported shooting incident. Said 3 shots emerged from the crowd as the motorcade passed three buildings. Reported again that a boy saw a man lean out of the 5th floor window and fire shots and also reported that an adult saw a man and woman crawl along on a grassy knoll walkway and they might possibly have fired the shots.

Dallas reporter, Joe Scott, announced there was a blockade at Elm and Houston. Four shells were found on the fourth floor of the...Depository...

MEMO

Steve Perringer...at intersection of Field and Elm Street. Officers and Secret Service agents have just taken a man who appears to be about 25 years of age into custody. The man denied any knowledge of the shooting. He said he had gone to the depository merely to use the telephone. Other radio reports received at this time say that officers have another suspect north of here that they are checking out.

Details of assassination. Presumed to be a 25 caliber high powered Army or Japanese rifle. Police Inspector J. H. Sawyer found remains of fried chicken, indicating that someone had been there quite awhile.

When suspect Lee H. Oswald was arrested, he brandished a pistol at officers J.D. Tippit and N. M. McDonald. Oswald fired at J.D. Tippit, who was killed and Officer McDonald rushed Oswald. Oswald was heard to say "It's all over now." It is thought that two men may be involved in assassination.

Very little news of suspect. No one arrested in the building. Discussed the amazing accuracy of marksmanship to hit the president apparently with the first bullet...A well planned assassination. Not a spur of the moment like on FDR in 1933...

Informed sources think the assassin might be heading for Mexico. Speculation that Lee H. Oswald is apparently not guilty if search has extended to Mexico... (5 hours later) Still only 2 suspects.. Obviously carefully planned shooting.

News Bureau from Los Angeles said Mexican Border now reopened on a restricted basis.

Will Fritz reports that witnesses have identified Oswald as the killer of Tippit. It has not been established that he had anything to do with the killing of President Kennedy, but he was in the building at the time.

Dan Rather talking about circumstances surrounding the killing -- it was well-planned in advance, rifle perfect, etc.

Dallas police say that Oswald has not been charged with anything as yet.

Another report on Oswald being apprehended. Still nothing official to connect him with the death of President Kennedy. He has been charged with the murder of Tippit, but denies he killed anyone.

Marvin Kalb reporting from Dallas says the general feeling there is that the assassination was possibly the result of an excellent marksman madman and not particularly Communist inspired.

11/23/63 Dan Rather--County Court House--Described scene where President was killed. Something about a 30 caliber weapon on top of boxes...Police indicate they will complete questioning Oswald this afternoon...Major General Walker made statement.

In the original charge against Oswald, a statement to the effect that the police wanted to inject the phrase "a plot of international communism" was dropped and not put in charges. Someone ordered these words be dropped from charge.

Bob Huffaker at Police Headquarters. Tension mounting. Break in case. Capt. Will Fritz and Chief...Curry are waiting in the basement. Curry said, "We are now sure of the case" Fritz said "A cinch case".

Oswald still not admitting anything...Still appearsto be arrogant...

KRLD (continued)

11/23/63 (continued)

Dan Rather described the inside of the County Jail...The assassin concealed himself in a high window, corner window...A 30caliber weapon was used as the President's car made a turn--about 75 yards down below the window.

Dallas Police Department reported today they are certain Oswald is the murderer of President Kennedy and police officer Tippit.

(After 7 p.m.) Bulletin from Dallas. Dallas police say tonight they have in their possession photographs Oswald holding the same rifle that was found.

7:30 p.m. Drastic new development...Tape of an interview with Chief Curry--this regards order letter sent for rifle--Oswald's handwriting matches order letter. No final report on ballistics test.

Oswald will be transferred...at 10 a.m. in the morning. He has repeatedly denied any connection with the death of President Kennedy...A real mob scene is expected in the morning when they move Oswald...It doesn't appear that Oswald will break and confess.

Mr. Hughes Rudd asked how many bullets entered President's body. Apparently two. Connally was hit by one.

The FBI, local police and representatives of the DA's office are with Oswald.

It is 9 p.m.

11/24/63

Oswald to be transferred this a.m. to the County Jail. Reports are that there is an eye witness, a negro boy. Oswald still declares his innocence...

Madame Nhu ignores letters and telegrams about assassination. She remains in seclusion in Rome.

Lee Oswald has been shot. Much hollering. Bob Huffaker down in basement at Court House reports the shooting...Whoever did the shooting must have been a detective or Secret Service agent as he emerged from that bunch of men...Only people allowed down in the basement were SS men, detectives and the reporters. The reporters were kept in a corner. Suspect someone dressed as police or detective...The guards were heavy in case of "lynch" mob but this again was a one man job. A small caliber pistol was used...

CBS - Oswald's death seems to end chance of conclusive findings if he is assassinator. Reporters feel they are in no position to point the finger of guilt.

Late report from Dallas police headquarters, Bob Huffaker reporting--Will Fritz... said that the case of Oswald and the Presidential assassination was closed as far as he was concerned. Complete confusion still at City Hall among reporters. Security measures have been increased to the utmost.

DA Henry Wade, says he won't release any more of the evidence that he says the officers have against Lee Oswald. He says Oswald case is closed, we have to get on with the Ruby case.

9:15 Dan Rather from Dallas, talking to CBS newsmen in New York...Washington officials are not giving up at all, but are trying to make Mr. Wade make the evidence public. There seems to be almost open public conflict between Fed govt and Dallas authorities.

CBS New York--report from Moscow (Stuart Novins)--Pravda article...links Kennedy's alleged assassin, Lee Oswald, with the American Trotskyites. In the (Pravda) lexicon, a Trotskyite is something even worse than the Capitalists.

Dan Rather, Dallas, just finished seeing movie that was taken by an amateur. Showed details of the Kennedy shooting. Description of Zapruder film (KRLD Reel No. 65 "A" page 7) attached.

Hughes Rudd, Dallas. FBI notified the City police...that FBI received an anonymous tip that Oswald would be killed as the transfer was being made...Police dispatcher says they have no record of the call--but the sheriff's dispatcher received a call a little after 2:15 a.m. the same morning and they do have a record of it.

Capt. Glenn King of Dallas has acknowledged receipt of phone call about Oswald being killed. He also said there were other anonymous phone calls from NY, Calif, and other places threatening Oswald's life...

Feeling is that security measures with Oswald were very lax. Ruby said he shot Oswald on the spur of the moment, that he decided on it after driving by the place where President was shot, several times.

WFAA 11/22/63 from Trade Mart (not clear if WFAA, may be KRLD)

Dallas police are believed to have surrounded the person who is suspected of having made the assassination. However, no person has been arrested as of this time. A dragnet is out in at least two sections of the city, one of them where the incident occurred and the other in the Oak Cliff section of Dallas.

NB: No time is indicated for the above item but it was subsequent to confirmation by Parkland that JFK was dead ("He was shot in the head by a high powered rifle, apparently from a window in a building on the western end of downtown Dallas.") which was at 1:30 p.m. The OakCliff dragnet therefore can be assumed to be in wake of Tippit shooting, although there is no item on Tippit.
