

2/7/69

From the sea-bed and the ocean floor  
To the awesome span of outer space  
We have general debates galore--

The gap between the rich and poor,  
The future of the human race--

We have inter-agency missions, peaceful atomic fission,  
Project evaluation and budget integration  
Recruitment and table-manning  
Status of women, family planning  
Children and youth, edible protein  
Joint inspectors, roll-call voting  
Working language and language bonus  
Maternity leave and muscle tonus  
We have meteorology and transportation  
And this above all  
We have, co-ordination.

CPC we have, and UNITAR  
Meditation room and delegates' bar  
Experts, advisors, and seminars  
Jerusalem, Jordan, and UAR  
Jamal Baroodi, feathers and tar  
Overlapping and duplication  
And this above all  
We have, co-ordination.

OAS we have and OAU  
ECOSOC, ACC, CCAQ  
We even have Who,  
What and where, but the wherewithal  
Has the Fifth Committee against the wall  
Terms of reference, documentation  
Disease control and eradication  
Woman's suffrage and co-education  
Social development draft Declaration  
Unified long-term planification  
And this above all  
We have, co-ordination.

Cruel and inhuman is the fate  
Of he who must co-ordinate  
O Lord have mercy on my ennui  
Deliver me from Onusie.
