

We co-ordinate, apace  
From the floor of the sea, through ACC,  
All the way up  
To outermost space.

On the surface of the earth  
Co-ordination has given birth  
To hydra-headed monsters by the dozen —  
Children, Youth, Volunteers,  
The Elderly and Aged, and his cousin  
Developing countries and the least developed  
By specialized agencies and UNDP  
Are country-programmed and enveloped.

Marine pollution, space applications,  
Development Decade of the United Nations,  
Disarmament, Refugees, Drought, Liberation,  
The Status of Women, the energy crisis,  
Give me an aspirin, and Schistosomiasis.

Hurry, let's set up, before it's too late,  
A specialized agency for Water and Gate.
