

Draft Report of the Representatives of  
the Specialized Agencies on the  
Eleventh Session of the Social Commission

(1960?)

Prevention of Crime: (Juvenile Delinquency)

The little tots of old King Tut  
Are yummy little mummies  
Who smite their papas on the pate  
And swat their mommies' tummies.

The youngest crop of scarab mites  
Should all be quickly interred  
In granite tombs and sealed air-tight  
So Mid-East crime is deterred.

You juveniles along the Nile,  
You nasty little gassers,  
Reform--or feed the crocodiles  
Along with Col. Nasser.

Urbanization

Athens, Rome and Liverpool  
All urbanized at early date  
To still this sinister whirlpool  
UN may even now be late.

The programme of urbanization  
Though notably lofty in concept  
For reasons too simple to mention  
Seems doomed to a long dose of neglect.

London, Glasgow, even Oslo  
Filled with helpless urbanites  
--They'd exchange the human inflow  
For a plague of locust flights.

We turn our attention to psychos  
(Those mentally not very healthy)  
Intemperate wielding of hypos  
Lets no one but MDs get wealthy.

World Social Situation (Statement by delegate of France)

Liberté: Egalité: Fraternité:  
To which the French admit Paternité---  
Just now do these the right to squawk  
Confer so much on M.Hauk?

(Statement by the Netherlands delegate)

The proper mental attitude  
is FUNDAMENTAL.  
Education, health and food?  
All incidental.

USA Congressional Criticism of FAO for Role in Hungarian Relief

Aiding Kadar was a .SENseless thing to do  
And now FAO has a sinister red-hue  
The American Senate, expressing dismay,  
Notes the less-than-whole loyalty  
With which FAO royalty  
Rewards the long-suffering U.S. of A.

If Hungary's nutritive level is sinking  
Check them for un-American thinking  
And if it's confirmed, they should never be fe  
--FAO, send a sermon by Dulles--no bread.
