

2/2/66 WOR 9-15 pm Barry Forber

EE & Vidin Riesel

BF - Fl. Kn. accused literary rage shifts
behavior

EE - Nothing in book to offend people.
thesis - for program - if Kn wishes
believe in honesty of WR entered his
opinion. Does not condemn
Kn has axe grind - 2 sides
every story.

BF - Tell how book born

EE - Street Masters thesis Cornell
under Andrew Hudson - public
journalist asked read it thru
a Cornell program - study of WC
not WR (etc etc) not JFK assassination

VR - doesn't go into 2 par 1 par
guys or conspiracy

EE Does had to deal to go, but
I did not reach conclusion
game kata pites problems

VR what problems with King
so high - culture stuff - ?

EE - WC could not reach conclusion
JFK - Gun C one bullet Point
"not essential" but language
should be essential had one or
2 assass - staff decided people
missile - President Lyndon B. Johnson
had doubts WC not agreed
on it.

WC agreed per WR "Condemn"
- no word of conspiracy

Gu I received was if possible
quantity invest percolated
2d answer - was it adequate
to find a No 2 assassin if there was
one?

VR - Not expert, has not read
26 Vs. Intent is frustrated
Professionally, think by
Felix Stanton LHO -
Chicago - Nixon -
gangsters

UR - but you are dependent on content
what you think. More the one?

EE - I just don't know. No more on
emergencies. We did find job in
Downing no link Lito/Park.
But really wasn't able to read
can draw one if + 1. I did
find we left unreviewed
Contract - ie - between
FBI & WR

FBI gets contract material we on content
anyway finding suggested by
photos not pulled by WC

BR Why? Why??

EE also behind WR. Then got
access WP files > 2 FBI reports
Found very glaring content
contract

UR - Can we get to specifics?

EE) June - page 1 FBI 1/13/64 - says
bullet under shoulder finger length
bullet fell out - WK said bullet
back of neck → throat → Jan C
Clear contrast on location bullet hit
Z Idem statement not every time K=C
Avg bullets - Max 30 fms or 1.8 secs
Bolt needs 2.25 seconds to
aiming. So lawyers concluded
single missile, which requires
exit bullet - But FBI says no exit

VR) One news story said bullet found
on JFK stretcher

EE) Yes that was story for 2 months
Then WK said Councilly stretcher
So 2 possibilities - WK autopsy
charged, or FBI persons,
cannot co-exist.

BF) Reads Kubel opening
"started check, quality
course pins"

EE) Let me explain how he "checked"
my statements, I had reported Hudkins
(explains) — (break)

BF) re-introduces

EE) was explaining how he "checked"
I had noted Hudkins told \$ 440
FBI \$ 200 etc. He planned
Hudkins who paid none such
ever, so he took H's word
implies I was being dishonest

△ made it up. It is Anderson
No 767 says x what I said
in report I sent ce Knebel
- true - after he wrote his article
- but didn't really bother him.

VR) Do you give any credence?

EE) No, not at all, especially since H lies
It was WC man called
Hudkins

VR Do you think if WC + diligent job
might have come another conclusion?

EE all a part of probability - pressures
and - presidential election - not
that they didn't want do good job

VR - what has presid elect got to do?

EE - WC never & lawyers point
trials wanted clear air before
elect

VR - Hunt' read your book -
will - do you think

neglected could could make
any difference than conclusions?

EE) Yes, photos & X-rays can
resolve in a minute

- Doesn't that why not
seem

VR) Geer returned possibly

EE) He was given a in handling
to FBI reports

VR) I thought one bullet hit JFK & Gov
not any time for 2?

EE) Yes, per lawyers

VR) Italian sharpshooter present, few seconds

EE) WC had 8 xpts only, 2 patches
LHO

BF) flying FL Kn on tape
"Here he was faced to down
disfigure FBI said

bullet went not very far
Des said all my thoughts
what he does? O Spectator
Takes side he likes FBI side
Why didn't he call Des? FBI?
Says not his province?

EE) True, faced to countercheck,
I said it exists. Not
in realm of speculation

In realm ascertainable just
I could call Drs James and
no comments.

(FK) exact same fuzzy, but
EE said Hankins told Al
(etc etc) pulled it
out - all he has is say
we never called Hank
- I called H he denied

EE) I sent Kn Al 767 signed
by Al Houston Kn has it in
his possession. Al Kn saying
Al is lying? He didn't
better check doc at Pitt Archives
After my back came out
whole doc - anyone wants
see it we will send it

No, I am attacking Al K
reminds EE liar

VR) I am more interested in
fact WC did not call H.

EE) 3 WCs Guyon Runt & Wynn
argued call H, but never
called him.

VR) We all live in large people houses
work we do a much as James
Don't get excited km think
left thing is did you ever
any other way

Areas not covered by WC creating
reasonable doubt?

EE) No I think WC did prove - if
then evidence is accurate -
it was LHO. But left wide
open the possibility there is
a second room.

VR) oh yes I think however that's
the fallen front journal
(break cover)

(Resumed) (9:55)

VR) Did you feel any reason for EW
paying we want to know
truth our lifetime?

Q) Said not security
might be true
WC not necessarily suppressing

Doesn't all facts will be known
with LHO an original to him

no doubt LHO did

assassinate JFK

WC conspiracy case

I don't know if he actually
shot JFK WC evidence
who had believe he was
not arrested
