

Introduction, final page, remember "xiii"

~~Index, "Fingerprints and palmprints" -- NB: "palmprints" is a single word in the WR, two words in the FBI reports; suggest we should use WR terminology~~

Page 49, fifth line from end--NB: FBI Summary Report includes reference to interview of Marina Oswald on December 3, 1963 (see Appendix A page 186). Therefore, should change text on page 49 to read--(FBI report did not go to press) "until at least eleven days..."

Page 97 lines 17-18 should read "...were not satisfactorily resolved..."
