

Telephone call from Ed Epstein Sunday night 10 pm 5/22/66

Two book clubs have taken the book (Literary Guild and Book Find).
LOOK of June 28 will have big feature article now being rushed to
print by Fletcher Nobel (co-author FAIL-SAFE) head of LOOK
Washington Bureau. Ed has (or has seen) unbound pages INQUEST
including my index. Is very pleased with it, is using it.
Also thanked me for subject index, used it also, showed to
Fletcher Nobel, gave him my number in case he needs any help
or information for the article. Nobel is interested in my
letter from Western C C, also wants material for his article
other than what is in Ed's book. Nobel will be in NYC on
Tuesday 5/24/66.

Lane spent \$5,000 on a brochure in which he tries to claim
credit for the FBI Summary Report...Still does not even know
about FBI Supplemental Report...Viking has Lane's May galley
proofs, which do not include a word about the FBI Summary Report
...The word has gone out in the publishing trade and the press
...expects an army of reporters, on the defensive, will go to work
on the case...Meanwhile, dealers are doubling their orders for
Ed's book...Atlantic article July cancelled...Confidential:
Viking slipped page proofs Ed's book to a few NY Times people
including Tom Wicker (also Lane's galleys, showing no mention
FBI on wounds).

Ed will be in NYC June 5th...will call...read him the clipping
from Chicago American...he wants to pay for ~~or~~ or share costs of
press clipping service. Asked me to call Asher and read him
the clipping.
