My dear Lord Devlin,

Since your endorsement of the Warren Report in the pages of The Atlantic undoubtedly influenced public acceptance of its findings, I strongly urge you to read the book Inquest: The Warren Commission and the Establishment of Truth by Edward Jay Epstein, introduction by Richard Rovere, just published by Viking Press, New York.

I hope that you will agree—in the interests of determining the full truth about the Kennedy assassination, and in the interests of truth for its own sake—that the astonishing new information in Inquest warrants reevaluation of the Warren Report.

Certainly many of those who first joined in acclaiming the Report did so in good faith; I am confident that they will not remain silent now.

Yours very sincerely,
