

Phonecall from EE, Friday 6 pm 10 June 1966

Hubert Humphrey cancelled his interview with Richard Rovere; Rovere thinks it was because of EE's book; the cancellation will cost educational TV station \$10,000.....AP sent out a release on EE's book, nothing in the NY Post today.....Weisberg and the Viking PI man maintaining contact; if EE understood correctly, PI man was receptive to W's approach to have Viking distribute his book! EE has seen the blowups of the doorway photos made by Jones Harris...he feels the man in the doorway could be LHO, or could be Lovelady.....NY Herald-Tribune will resume publication in day or two, will give headlines to EE book (EE has very good friend on NY H-T).....Wants to ready a rebuttal to all the stories published so far...Asked if I told HW re Look article...frankly, I may or may not have ...HW told Viking PI man he heard there would be hostile Look story, from a Look man.....EE also asked me call Sauvage, anxious to know if he is reviewing EE book....Aaron Asher got letter from Peter Kihss (they had run-in a few days ago), who continues to insist that the holes do show in JFK's coat and shirt in EEs 393-395 ...Not so.....Also, EE disputes Redlich/or/Specter, whichever one said that the bullet fragments in Connally were "microscopic".....because EE has just discovered CEs showing fragments removed.....says if you can see them, they are not microscopic....told him (he did not know that) that Gregory testified largest fragment or fragments removed from wrist were lost.
