Dear Mr. Berendt,

Thanks for sending me the proof of my material. I don't see any author's name but I assume it will be included, as you had assured me it would be. If my understanding about attribution is incorrect, please phone me right away.

One other point: At the end of the item "Robert Adrian Taylor" the sentence "He did not." is omitted. I hope that was inadvertent. The item does not make sense without that sentence. If you feel it is too categorical, then at least say, "The Warren Report mistakenly asserts that Taylor retracted his identification of Oswald." Please let me know your decision on this matter, which I consider of importance. You will remember that we agreed on the sentence, "He did not." when you were here at my apartment.

Finally, the sequence is not correct in the proof you sent me—the last 36 lines on the last page should precede the "Inquiries to be Pursued." Again, I assume that you have already made that correction.

Yours sincerely,
