

DL 89-43

By communication dated November 27, 1963, the Bureau advised as follows:

The 6.5 millimeter Mannlicher-Carcano cartridge case previously submitted by the Dallas Office has been identified as having been fired in the 6.5 millimeter Mannlicher-Carcano rifle, Serial Number C 2766. All three cartridge cases which were recovered in this case have now been identified with this weapon.

No fingerprints were located on the cartridge case.
