

DL 100-10461

RPG/jte

1

Under date of September 25, 1964, the FBI Laboratory advised as follows concerning an examination requested by the Dallas Office on September 18, 1964:

Specimens received 9/21/64

Q616	C323	Bottle cap found in Dealey Plaza
Q617	C324	Piece of metal found in Dealey Plaza

Results of examination:

Specimen C323 is a metal bottle cap, painted black, from a metal can or glass bottle.

Specimen C324 is an aluminum alloy plug from the end of a piece of tubing. C324 appears to have been lying in a street, on a sidewalk or path since sand grains have been pressed into its surface.

Neither C323 nor C324 is in any way associated with a bullet. Neither C323 nor C324 has been struck by a bullet or by a bullet fragment.
