Dear Mrs. Ferrell,

In your letter of 18 April 1970 you were good enough to offer me access at any time to your research materials, including tapes of the police radio channels on 11/22/63. Recently, David Lifton has provided me with a set of those tapes, which I understand were originally made available by you. I do want to express my particular appreciation for the generosity you have shown in sharing these invaluable tapes with other researchers, and to thank you specifically for making it possible for me to have these tapes at my disposal.

With kindest regards,

Yours sincerely,
